Subject: FW: Section 7 Consultation Initiation Staff

Importance: High

Kavita, Alaina,

Below are the contact information for the Bureau of Reclamation. Nicole is the PM for the San Luis Low Point Improvement Project, at which Pacheco is the preferred NED alternative. Shane is her supervisor and Anastasia is his supervisor. We meet bi-weekly on our Project Development meetings and both Nicole and Shane participate at those.

Let me know if you need any other contact information from BOR. Todd is gathering contact information from Corps of Engineers, San Francisco District. I will share them with you likely by tomorrow.

It was great meeting and discussing with you both.

Best regards,
Melih
